

The Golden Business

Welcome on the doorstep to one of the best (and actually working) passive income method!

First, I would like to thank You for purchasing my Ebook! (don't forget to write down Your ID I gave You in case You need my help in anything!)

I think You may have already read lots of Ebooks about making passive income, or, in general, money on the Internet, so I spare You the long speeches about how You will make lots of money, and how easy it will be.

Before doing anything, I suggest You to read the whole Ebook, and after that, start doing the steps!

Let's get right to the chase! (almost)

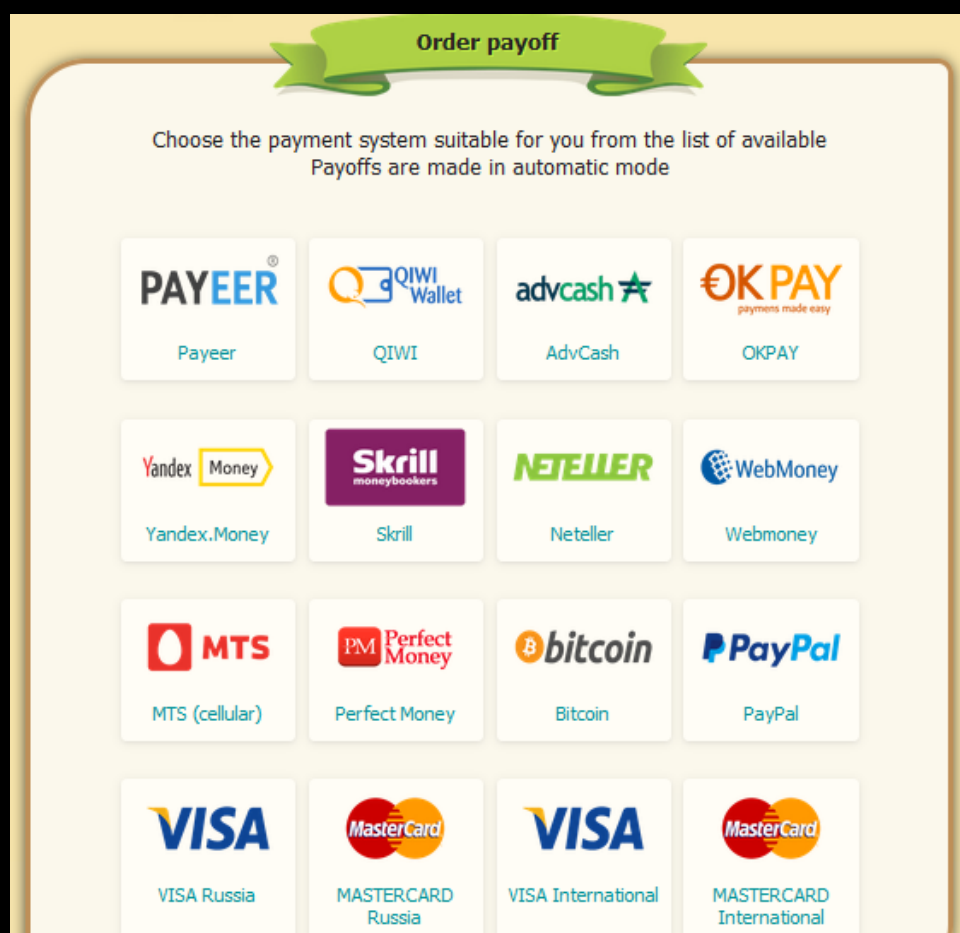

As You already know, this method revolves around the famous (or in some cases, infamous) *Golden Farm*

The infamy You may have heard of came by people who have absolutely no idea how this business operates, and in general, what the hell to do. Basically, it was like a child saying he doesn't like ice cream, even though he never tasted it, hell, he never even saw one.

Golden Farm started in 2013, and they changed websites once, (all accounts remained untouched, and got carried over) so if You look up the current website on a checker, I think it will show around 2016. But the business DID operate in 2013.

After the website changes and some time, the withdrawal options became huge. Take a look at the current (2020/11/26) options:

Yeah. You don't have to worry about not having the right withdrawal method, I assume. 😊

And now, my Lady or Gentleman, let's get started!

- **If You already have a GF account, You may keep it, but, as I don't know how You used that account, You MUST create a new one with Our Referral link. use VPN! Or You will get banned! ALWAYS use Your VPN AND CLEAR YOUR COOKIES if You are connecting to the account You will make for this method! If You don't care about the account You used before, just delete it, and then You will need no VPN nor cookie clears.**
- **If You don't have a GF account yet, it's all good. You don't even need to use a VPN, except if You want to make more accounts for more money, but We will get into this later.**

First, We are going to talk about the situation if You have no GF account yet.

Use this link to sign up:

<https://golden-farm.biz/?en=SandWhale>

It is CRUCIAL to use Our Referral link to register, because everytime Me, or one of Our Referrals deposits, You will get 30% of the amount deposited!! (At the moment of writing this, We have 1038 Referrals, and every single day We will get

minimum 8 deposits (that was the lowest one) If „only” 8 people deposits 5\$, You, Me, and Our Referrals (except the ones who did the deposit. They will profit from 7, not 8) will get 12\$.

Basically, by registering with Our Referral link, I can guarantee that You will get at least that amount daily by doing absolutely nothing. You don't even have to check the site to claim it, or anything.

You can check the site once per week if You want, and find Your balance well above 100\$, as the amount I told before (12\$) was from the day We had the lowest amount of people depositing. You may check it one week, and see that You have 548\$ (random number) as a balance. We can't really control that.

If You register without Our link, You will lose ALOT of time, and You will need to build Your own „Referral empire”. You are free to do so, but You will only hurt Yourself. And of course, with no Referrals at Your disposal, You won't get any daily \$\$\$ profit, except from your own Birds.

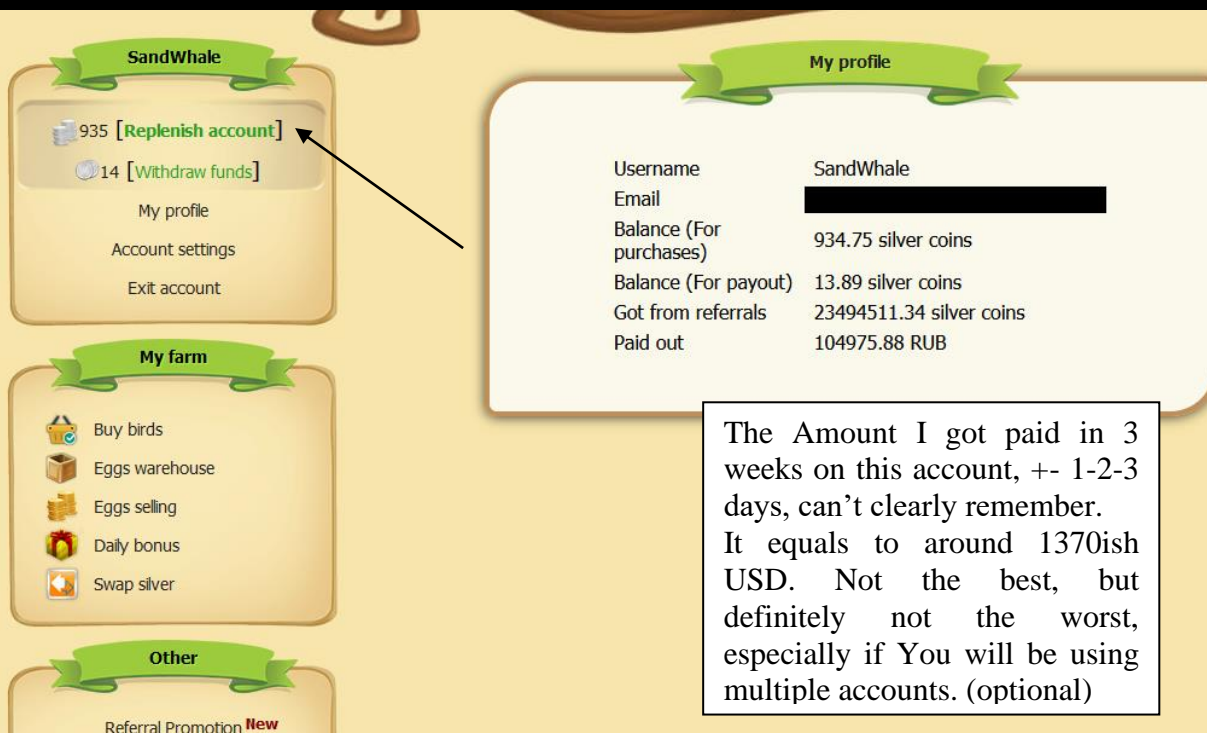

By registering to Our Empire (Our Referral link), You will get back the 99\$ You paid for this Ebook in a week. And all You have to do is... well, nothing!

The Guide:

<https://golden-farm.biz/?en=SandWhale>

After You have registered and done the „tutorial”:

- 1. Click „Account Settings” under „My Profile”**
- 2. Change Your „Account Currency” to RUB. That way, You will get a little bit more money out of everything (Referrals depositing, withdrawal, etc.), and also pay less when depositing. This is entirely optional, but We are here to get money, and We will maximize profit every single way possible.**
- 3. Next, click on „Replenish Account”. I also included a screenshot from one of my account: (note: this is not my Main account, the one who owns the Empire and the one You registered to. This is SandWhale with a capital „i” at the L. I’m only dual accounting, because using more would be a hassle for Me, and also dangerous.)**

This is the part where You will have to deposit money. (You cannot even withdraw if You never deposited anyways, but this does not concern Us)

As You already know, the money You deposit will be refunded to You in around an hour, so feel free to deposit any amount You want... ALMOST!

Now, listen carefully!

GF will NOT refund anything if the amount is under 1000 RUB, and they will do a thorough investigation if the amount You want to be refunded is above 14-15000+ RUB. For example, 13941 RUB deposit CAN and WILL be refunded. 14109 RUB MAY get refunded, or not. Above 15000 RUB, they will 100% do the investigation and You will NOT receive Your money back!

The best is to just not gamble, and do a deposit below 14000 RUB, and above 999 RUB!

What I suggest:

You can see from the screenshot above, that, depending on the amount You have deposited, You will get free Birds. Red and Brown Bird if the amount is above 5000 RUB.

We don't really care about Brown, but Red is not bad. Also, when You first register, the Birds You can buy with Silver (thats what You get from depositing) will be discounted, and with 5000 RUB deposit, You will get around 872.000 Silver Coins.

--- DON'T forget that the money You first deposit WILL be refunded! 100% Guarantee on that! ---

--- The best is to deposit as much as You can (not exceeding 14000!!) , because refunding cannot be done constantly, and WILL get You banned like some of my ex-ref who didn't listen to Me and started to try to get refunds more than once a week... don't be a fool, GF is no fool, too. ---

Before talking about the Birds, I will tell You step-by-step how to get Your refund.

Note: DON'T, again, DON'T deposit using BitCoin, or Your CC (as they have a BTC converting process!) as that WON'T be refunded! I warned You! ONLY deposit using Payeer! Register, it is safe, fast, and You WILL get Your refund!

1. Deposit using Payeer (don't forget! Deposit between 1000 or below 14000 RUB! I suggest depositing 5000 for the bonus Birds, and with that amount of Silver You will get, You will be able to buy the best 2 Birds We will talk about later. If You have the money to deposit 13000 RUB, go for it, as that will give Your own personal passive income a MASSIVE boost, and why not go for it if

You are going to get back that money anyways in around an hour? The amount You deposit will be beneficial to Our Whole Empire, too)

2. After You have completed the deposit and got Your Silver Coins, go to „Buy birds”.

3. These are the ONLY Birds We will be focusing on: (with Our Empire, You don't even have to pay attention to the Birds after the first deposit, but they WILL get You money, too, and as I said, We are here to maximize EVERY possible profit.

You will be able to buy much more birds if you **replenish the account.**

The cost for Birds You see here is not the one You will see, as my account is old, and discounts are rare. New users always gets discounted Birds. (If I remember right, it is -50% Discount!)

- **Red Bird: Only buy these if You have no Silver for King Bird. You should really just save up Your Silver Coins (or deposit) to buy King Birds and Super Birds. Red Birds are not bad, but nowhere near King Bird.**

100 Eggs = 1 Silver Coin. 70% will go to Your Silver Coins (to purchase), and 30% will go to Silver Coins (to withdraw)

Red lays 173.520 Eggs per Day, which equals to 1735 Silver Coins.

520 Silver Coins will go to Your Silver Coins (to withdraw. In the future We will refer to this as SCTW). This is the Silver Coin You can withdraw for real money. 520 SCTW equals to around 0.07 USD/day.

1215 Silver Coins will go to Your Silver Coins (to purchase. In the future, We will refer to this as SCTP). SCTP is used to buy Birds.

- **King Bird: This is the Bird who fucks. He lays 526.200 Eggs per Day, which equals to 5262 Silver Coins. 5262 Silver Coins: 1579 SCTW (0.2 USD/day) | 3683 SCTP Keep buying King Birds if You want to increase Your own passive income a bit, and also if You want to expand Your**

„Bird Empire“.

Having nice amount of Birds will net You a good personal income, and don't forget that You will get Your daily \$\$\$ from Our Referral Empire no matter what, so, as I said before, You don't have to pay attention to Birds after Your first deposit.

- **Super Bird: This Bird doesn't fuck at all. For some reason, it shits money. Super Bird will net You pure 5,040 SCTW (0,65 USD/day). It does not give You Sctp.**

A common strategy in Our Empire, is to deposit every month and buy as many Super Bird as You can. The money will get refunded, too, but You have to do that clever, and I will tell You how. If You want to play really safe, just deposit every month any amount You want, and don't do a refund. You will get massive profits from Our Empire, even 100\$ deposit/month will be just pocket money.

Some of Our Members are doing the same with King Birds. It all depends on You. You can do both, either, or neither.

4. **Depending on how much You have deposited, SPEND IT ALL the best way You see it. It is crucial to spend it, because when You get Your refund, Your Sctp will be nulled. (not Your SCTW!) Getting 2 King Birds and 1 Super Bird from Your deposit is a good little way to start, because King Birds will keep laying eggs, so You can**

purchase more Birds for more personal profit, he also gives SCTW, and Super Bird will always net You the SCTW. Going with this method You will get 1\$/day, plus Our Referral Empire payment that can be anywhere between 12\$ to... as I said, it depends. You may get 105\$ in Monday, You may get 47\$ on Tuesday, You may get 78\$ on Wednesday, and so on... I cannot control how much Our Empire will deposit every single day. I deposit 1000\$ every month. On that day, just from Me, You will get 300\$.

5. After You have spent Your SCTP, click „Support”

6. On Support, click on „Create a Ticket”

7. Select „Balance replenishment” under „Select a category”

8. Under „Request Subject”, select „My question is not listed...”

9. Now We need a little creativity. We MUST contain the word „Accidental” in either the „Subject”, or „Contents”. Some example: Your son got hold of Your CC, You accidentally entered the wrong amount and that is just too much as You are just starting out, etc. Lots of possibilities.

What is CRUCIAL is the word „Accidental” to be there, as that will trigger their automatic system for refund!!!

If You did what I told before and deposited between 1000 to 13900 RUB, in 1-2 minutes You will get an auto email

saying that they are sorry (lol), and will refund Your amount within an hour. They also state that Your SCTP will be nulled, but who cares about that when You have already spent it? The Automatic System doesn't check, it just wipes.

And what is the best? You got Your refund, Birds, AND You are eligible to withdraw money because You have deposited once! Even though You really didn't!

NOTE: If You deposited under 1000, You will get an auto message, saying that they are sorry, but they cannot help (lol). If You deposited 14000+ (depends), or 15000+ (always), You won't get an auto message in some minutes. You will get a living person emailing You, and I cannot help You from there. You may convince them that it was really accidental, and they may refund You, but then You will lose Your SCTP, Your Birds, and You have to deposit again to be eligible for withdrawing, and, as You can guess, Your „accidental” story won't work anymore. Even though You will do the right way this time and get the Robot to refund You, You are flagged and a living person eventually (within a week, usually) will look into Your account and just ban You straight away!!!

**Better to just lay low and go for the Robot messages.
Stay Safe!**

10. You are done! Now, You are eligible to get money from Our Referral Empire, and eligible to withdraw!

All You have to do now is to check on the site whenever You want, and withdraw whenever You want.

You can also build Your own Bird Empire steadily to make Your own personal income bigger and bigger.

- **In the 2nd Ebook, I will teach You how to safely use multiple accounts. (I recommend 2, but if You have the patience, You can make as many account as You want. But be warned, that every single account You create HAVE TO HAVE its own IP with a VPN, AND You have to remember which one used which, AND if You fuck it up ONCE, it is game over, and all Your accounts will be banned with all the money in it. That is why I recommend 2. It is easy, and You won't get confused, and, as We are humans and are prone to fuck-ups, having 2 accounts only, the chance for fuck-ups is almost 0.**
- **In the 3rd Ebook, I will teach You how to refund more than once. The method works, but You have to deposit money 2-3 times and not refund it, and THEN You will 100% get the refund on Your next deposit. All details in the Ebook.**
- **In the Bonus Ebook, I will share You Our Bird Empire strategies if You want to fully maximize Your profit.**

Since You payed for the Platinum, You have all the Ebooks, with all the tools! If for some reason You didn't get one of them (shouldn't happen as they are compressed in .rar, but I understand corruption happens), write Me a message with Your ID, and I will send it to You!

And, as You know, sharing, distributing, hell, even selling my Ebooks is forbidden. You purchased from Me, so You know who I am. I will know You did it, and I won't be happy about it.

Yes, they would net Us money. But look at it this way: Our Empire is a private club of over 1000 Members who Paid to be part of Our Group. They paid for knowledge. They paid to get massive passive income. We don't want leechers. We don't like leechers. Even if We profit from them. We make massive profit at the moment too, and leechers who couldn't even afford a Standard Version would just do the same. Just leech with no contribution. Understand?

Welcome to Our Empire. Spend Your money wisely, and be an entrepreneur (just a tip). Don't work for anyone from now on, except for Yourself.

**With Love,
ROBO@madhat.at**
